

Replacement of the Valve Cover HH (Hex Head) Collar Screws on 2004 Racing Four Stroke models

- » **During the course of regularly scheduled maintenance** it is recommended to replace the originally equipped valve cover HH (Hex Head) collar screws that were installed on some 2004 Racing Four Stroke models.
- » **Replace** the original HH collar screws with two AH (Allen Head) collar screws **M6 x 55 (Part # 0912060551)** and two new copper seal washers (**Part # 0603061001**). Only replace the two HH collar screws located above the rocker arm shaft end caps. When replacing the collar screws, it is also recommended to set the rocker arm axial play according to the Service Manual. REF: TB0041.
- » **Note:** All Racing Four Stroke models may use the new AH collar screws when replacing worn or damaged HH collar screws. The HH collar screw (**Part # 0912060553**) will be superseded with the new AH collar screw part number listed above.
- » **2004 Racing Four Stroke models**, starting with VIN: VBKRCA4024M371530 and later, have been fitted with the new AH collar screws during production.
- » **Not a warranty item.**
